GOLD FOR IMPORT LIVENS MARKE

Jauses Covering of Short Contra and Results in Net Gains for Many Issues.

REABOARD AIR LINE DOWN

New York. Sept. 16.—Announcement that \$\text{III}_{0,000}\$ or gold had been taken for import put a little life into the stock market to-day and caused covering of short contracts to such an extent that many issues showed net gains for the day. Among the leaders were American Can both common and preferred. Can both common and preferred and Nashville. Southern Railway preferred and the local tractions. Chino, Can preferred, Central Leather, Southern Railway preferred and Colorado fuel made high records for the Year.

Chino, Can preserved, certain assession of southern Railway preferred and Colorado fuel made high records for the pear.

Engagement of gold for import attracted attention chiefly because the exchange rate did not warrant importation. The loss on this small importation, the loss on this small importation of gold, however, would be so small that it could be easily overcome by rofits made in other directions by reason of the good influence of the gold movement. It is only a question of time when considerable gold crosses the cean to pay for the big imports.

Presidents McCrea, of the Pennsylvania, and Lovett, of the Union Pacific, gave testimony to-day as to the growth of business. Both agreed that prosperity is already here. Mr. Lovett called attention to the shortage that seems apparent in the country just now. Organized labor is making outry in solution, but regarded labor is making outry in solution, but regarded labor is making outry in solutions and perhaps with justics, but regarded labor is a very small minority and loss not count in considering the broad part of prosperity.

Coppers in Good Shape.

Advance of Chine to a high record was no surprise, because the coppers are all in splendid shape. Utah copper recovered from its depression last week perhaps because the liquidation that was appected id not take place. It is hard to force liquidation of any first class copper stock now, when all agree selling ander their prosper prices.

Colorado Fuel and Interborough-Metropolitan were strong, but failed to attract any following because both have proved themselves unreliable for buying purposes. The advices may be based on affer grounds, but Wall Street feels that here are better places to put money.
